

The Berkeley Bulletin

Volume 4

ENGN's Agenda:

The Engineers are doing some project development in the morning, are visiting the Intel museum and after some more project development will end their night with the dyadic encounter

HEAL's Deal:

Today, Medicine students head to the ropes course and participate in clinical diagnostics. They will hear from Dr. P and end the evening with a dope pizza social!

BIOT's Business:

Biotech students begin their day with incubator, will hear a guest lecture by Dr. Lam, participate in a DNA cutting lab, and end the evening with the dyadic encounter

Today's Distinction: Leaders Are Inspirational and Empowering, Enrolling Others in Their Vision

A vision is just a theory, a thought or nice idea unless it is given to others. True leaders stand out because of their innate ability to share their vision in a clear and powerful way. Leaders empower the masses into movement, inspiring them to take hold of the Vision as if it were their own. Leaders who create the future don't do so by themselves. They are fully aware that things usually don't happen without others to support the process. "It takes a village," so to speak, to create the Visions that are worth having, and everywhere you look the most significant accomplishments throughout history have always included numerous others who had a role in its fulfillment. There is nothing quite as powerful as an idea whose time has come except for the group of people who give it life and the leader(s) who call them forth.

COMM'S Corner

Journalism, Film, and Media Arts students will be discovering the world of communication, head to pier 39, and end the with the 48 sec film festival

Featured Staff Member: Jay Hidalgo

Jay is the HTA for the Journalism, Film, and Media Arts program. He earned his degree in Public Policy with minors in Legal Studies, Political Communication and Political Science

at the University of Delaware. He was a brother of Alpha Phi Omega, Social Media Ambassador, Student Alumni Ambassador and member of the Student Media Coalition. Jay led several research initiatives, his most notable on Defense Policy in the media and was invited to present materials on Veteran Affairs to the Delaware Legislature. He currently serves as Assistant Financial Director on a political campaign. Outside of school, he is a competitive rock climber and he teaches patients with cerebral palsy how to climb indoors. He loves to cook (especially Asian food), as well as biking and playing one of 5 instruments he knows how to play

Featured Student: George Shultz

George Shultz is a Biotechnology student from Centerton, Arkansas. He is interested in biotechnology because he is interested in integrating technology in ways that help people that need it the most. The part of biotechnology that he finds the most interesting is the production and usage of prosthetic limbs.
