

The Berkeley Bulletin

Volume 4

ENGN's Agenda:

The Engineers are visiting the College of Engineering, hearing from Dr. Hayley Lam and participate in the Trebuchet Challenge!!

HEAL's Deal:

Today, Medicine students hear from the Berkeley School of Optometry, spend the day doing medical simulations and end the evening with ice cream and trivia!

BIOT's Business:

Biotech students begin their day with bionic design, participate in a lab, take a trip to Pier 39 and have a trivia social at the end of the day!

COMM'S Corner

Journalism, Film, and Media Arts students will head to ropes course, will participate in a comm dialogue and discussion, and end their evening with a trivia night!

Today's Distinction: Leaders Are Responsible for it All

To be responsible is to be the sole, uncontested author of one's life, and leadership is responsibility in action. Leaders do not expect someone or something else to cause their "vision" to become reality. Leaders are responsible for it all, from the concept, to the implementation, to the final result. The obstacles and pitfalls that occur along the way are merely challenges that, to leaders, make the ride all that much more enjoyable and valuable. Ordinary people become victims to the problems that arise on their journey towards a goal, and the end result is usually failure. Being responsible is being free, allowing leaders to invent and originate solutions to problems and new visions for achievement. Responsibility is not a burden, duty, or obligation, but rather, it is an opportunity that includes a sense of ownership and power.

Featured Staff Member: Rowley Clarke

Rowley Clarke is an Engineering TA from The Woodlands, Texas and is studying Materials Engineering and Chemical Engineering. Outside of school Rowley is involved as a mentor of high school and college aged students through his church. In addition to that, he enjoys playing video games, traveling to new places, debating with others and hearing new perspectives, spending time with his father, and long boarding. His favorite bands are the Red Hot Chili Peppers, John Mayer, Weezer, and

Incubus, and he enjoys places with cold weather and beautiful landscapes.

Featured Student: Teah Serani

Teah Serani is a Medicine and Healthcare student from Quincy, Massachusetts. Although she does not yet know what kind of medicine she wants to go into, she is interested in medicine and healthcare because of the anatomy and science aspects of the field, and also because she would be able to help others as a medical professional.
