

# The Berkeley Bulletin

Volume 4

## ENGN's Agenda:

The Engineers are hearing from Mr. Bill Nott, heading into the city to see Fisherman's Wharf, working on their projects, and testing their sea perches

## HEAL's Deal:

Today, Medicine students are visiting SFGH and Pier 39, participate in public health intervention, they will hear about sports medicine from Dr. Chang and end the night with karaoke!

## BIOT's Business:

Biotech students will visit JBEI, participate in incubator, hear from Mr. Terry Johnson, do some bionic design, and end the evening with a trivia social

## Today's Distinction: Leaders See All Obstacles as Opportunities

Obstacles are an inherent part of any significant achievement. The circumstances of life are constantly changing, and new developments in people, places and things can cause difficulties to arise at any point in time. Leaders are not only aware of this, but they also know how to anticipate the obstacles that ordinary people fall victim to. This anticipation of the unknown makes it easier for them to stay on task and reach their goals, but their uniqueness goes much further. Leaders persevere to find workable solutions in every situation, even when most people would throw in the towel. They stay driven with unshakable clarity and focus, and are even grateful for the opportunity that naturally comes with any challenge. Leaders are able to keep things in perspective. They realize that things are usually never as bad as they may appear, and they can always find other problems in the world that make their situations seem simple. They somehow see through the chaos that exists around them and find ways to rise above the unfamiliar hurdles of life on their path to achievement.

## COMM'S Corner

Journalism, Film, and Media Arts students will visit Fisherman's Wharf, participate in some Comm Workshops, and college life panel!

## Featured Staff Member: Haley Schikner

Haley Schikner is an Office Assistant from San Diego, California and is currently studying Advertising and Business at Northern Arizona University. Besides being one of the sweetest people in the world, in her free time Haley enjoys trips to Frannies, chatting with Ryan at little Ceasar's, listening to the song Sweet Serendipity, and hanging out in the Hot tub. Everybody loves Haley (no, seriously, everybody does!) so feel free to stop by the office and remind her how awesome she is!

## Featured Student: Emily Trytten

Emily Trytten is an Engineering student from Laguna Hills, California. She is interested in engineering because she wants to find better and easier ways to do every day tasks. She also likes how it allows people to use creativity to reach a goal. Without engineering, she believes society as a whole would not be able to progress, which is important to her. She is most interested in electrical engineering.
